The aim of the conference is to provide an opportunity for academics, practitioners and researchers to discuss new achievements or concepts, approaches and innovative practices within the continuously progressing world of electromechanical and energy systems.

TOPICS

- Automation, Robots and Mechatronics
- Electrical Apparatus
- Electrical Machines
- Electrical Traction and Automotive Equipment
- Electromagnetic Field and Electrical Circuits
- Energy Efficiency and Renewable Resources
- Engineering Education and Evocations
- Industry Applications
- Management and entrepreneurship
- Materials, Eco-design and Electro-ecology
- Metrology and Measurement Systems
- Power Electronics and Drives
- Power Generation, Transport and Distribution
- Reliability and Diagnosis

IMPORTANT DATES

- ~~11 June, 2023 – 10 July, 2023~~ **03 September, 2023** – full paper submission (at most two papers with the same main author)
- ~~24 July, 2023 – 17 September, 2023~~ – notification of acceptance
